

01.

Efficient

Traceable and
redundant for all users

02.

Simple

Direct and hassle-free
access

03.

Reliable

Aligned with regulatory
standards

04.

Cost-effective

A fast-to-implement
solution

BENEFITS FOR OPERATORS

What is VAC? VAC is a digital infrastructure for verifiable professional identity. It integrates and organizes information about training and professional experience to record, preserve, and demonstrate a person's career history in critical activities.

For companies, VAC enables them to verify in real time which individuals are authorized to perform specific critical activities and access the associated evidence.

Control and Traceability of Competencies in Critical Activities for All Types of Companies and Industries

VAC enables field verification of the capabilities, authorizations, and supporting evidence of operational personnel performing critical-risk activities, facilitating compliance with requirements and information traceability.

Training with
support, safety with
representation.

- ✓ Legal compliance and internal standards: Verification aligned with legal requirements and internal standards (HSE).
- ✓ Complete audit and traceability: Training history always available and auditable.
- ✓ Authorization verification: enables verification of which individuals are authorized to perform high-risk activities and the evidence supporting their authorization.
- ✓ Mobility between sites/units: VAC credentials follow the worker across locations without duplicating efforts.
- ✓ Instant verification: QR codes for access control or work points.
- ✓ Operational efficiency: Centralized training management and reduced induction times.
