

FULL TRACEABILITY THROUGHOUT THE ENTIRE TRAINING CYCLE

What is ARC? ARC is an all-in-one platform designed to manage your organization's entire training lifecycle, from initial strategy to final traceability. It centralizes planning, manages attendee records, consolidates supporting documentation, and builds a complete, traceable individual training history.

All of your organization's training—recorded, traceable, and always available

ARC transforms training management into organized, traceable information available for decision-making

ARC centralizes the planning, logging, and documentation of your organization's training activities, generating an organized and traceable record of completed training.

- ✓ Centralization of training data.
- ✓ Activity planning and follow-up.
- ✓ Individual training history.
- ✓ Traceability for every record and its supporting documentation.
- ✓ Fast lookup of activities and participants.
- ✓ Annual training plan compliance tracking.
- ✓ Overall and individual statistics for data-driven decision-making.
